

Zurich and CERN top webcams

December 29, 2008

Webcams scenic city of Zurich were rewarded in the same way as those of the Eiffel Tower, the center of London or the edge of Niagara Falls.

Webcams raised around the particle accelerator at CERN in Geneva have also marked the jury, like those to track bees in Pennsylvania, gorillas in Washington or fish in Scotland.

Finally, the daily life of a hairdresser and a Mandy to work were also selected.

The views and live in high definition in the city of Zurich: not to be missed by the jury of the [EarthCam site](#).
