

Best of GISuser Spotlights 2008 - Part 3 of 4

December 26, 2008

From Q3, 2008 we offer up a recap of GISuser spotlights and news items that got out attention... noteworthy moments included news and features from the 2008 International ESRI User Conference, the expansion of [Earthcam](#), a feature on LBS apps for iPhone, a look at an exciting Digital Pen Technology from Adaptx, a trip to Oce Chicago's HQ to see the ColorWave 600, a trip to Helsinki Finland for Nokia OpenLab08, Situational Awareness at the DNC, and the launch of GeoEye.

About Earthcam

Founded in 1996, [EarthCam](#) is the leading network of live webcams and offers the most comprehensive search engine of webcams. The owner-operator of hundreds of network cameras, [EarthCam](#) delivers live images of major tourism destinations to consumers in 182 countries, influencing their pre-purchase vacation decision-making process. [EarthCam](#) also offers unmatched promotion and marketing packages to Convention and Visitor Bureaus, Chambers of Commerce and hotel chains. [EarthCam](#) has the number one ranking on Yahoo!, Google and MSN for users who search "webcams". Generating 350 million page views per month with over 200,000 unique visitors daily, [EarthCam](#) is rated in the top 99.995% of all websites

[EarthCam](#) provides complete infrastructure services to manage, host and maintain live streaming video camera systems for its consumers and corporate clients.

I could easily spend hours spanning the Globe and viewing real-time imagery and photos using [Earthcam](#). It left me wondering also how cool would a mashup of this be? No doubt we'll see one soon as a Map UI would be a really nice way to navigate and select from the cameras!
