New York - [EarthCam](#), an industry leader in webcam technology, will webcast its 14th annual New Year's Eve Times Square interactive celebration live from New York City and locations around world.

[EarthCam](#) brings the world's largest party in Times Square directly to visitors live in real time via its interactive New Year's website and without commercial interruption. The evening's events also may be accessed through mobile devices--including the iPhone.

Plans for the New Year's 2010 event call for more than 25 live camera views from Times Square on December 31st. Viewers will be able to choose from among the New York cameras throughout the day and enjoy events in streaming video with audio from viewpoints they chose. Cameras available for selection in additional locations throughout the world include Moscow, Thassos, Prague, Malta, London, Buenos Aires, Montreal, Miami, Las Vegas, San Francisco, and Seattle among the national and international celebrations.

The Times Square events and views from selected cities will be archived in streaming video and as time-lapse movies.

[EarthCam.com](#) pioneered New Year's Eve Times Square webcasts with the first live event launched in 1996. Since then, [EarthCam](#) has webcast annual celebrations from Times Square and worldwide locations each year, including a 24-hour event for the Millennium in 2000.
