

EarthCam at Poipu Beach From The Parrish Collection Kauai

Spectacular Views Seen from Parrish Kauai Vacation Rentals

Poipu Beach, Kauai, Hawaii (PRWEB) August 16, 2012

The global leader in webcam content and technology has teamed with one of the most recognized Kauai vacation rental companies to provide live streaming video of the Poipu Beach coastline. From The Parrish Collection Kauai vacation rental perched high above the Poipu Resort area, visitors can see the spectacular coastline of the famous Kauai beach in high-definition from EarthCam.

Poipu Beach Park consistently ranks among the top beaches in America. It has been a national winner of Dr. Beach and chosen by the Travel Channel as one of the best in the country. With its year round snorkeling and a protected jetty where children can play safely in the ocean, the park consistently ranks high as a family friendly beach.

The Parrish Kauai webcam is pointed over Brennecke Beach near their Kauai condos and Poipu rentals. It captures one of the few Hawaii tomboles, a sandbar at Poipu Beach, that connects to Nukunoi Point where Hawaiian monk seals are often seen. Depending on time of day, the island of Niihau can also be viewed in the distance. During the year their website visitors can enjoy Kauai fireworks on New Year's Eve, seasonal outrigger canoe races and the spectacular nightly Kauai sunsets.
