

EARTHCAM TO SHOW SOLAR ECLIPSE AROUND THE WORLD

Mestes | August 20, 2017

(WDEF) – From the top of the Seattle Space Needle to the streets of Times Square, viewers will enjoy the solar eclipse courtesy of [EarthCam](http://EarthCam.com), a global leader in delivering webcam technology.

EarthCam will follow the totality of the eclipse on Monday. Click on www.earthcam.com.

The nationwide broadcast will begin in San Francisco at 9:01am (12:01 EST) and continue across the continental United States, the first time such a phenomenon has been seen in 99 years.

The path of totality crosses the country from West coast to East coast through 14 states. Watch for shadow bands crossing cityscapes such as Seattle, WA; St. Paul, MN; St. Louis, MO; and New York City. Even where the eclipse will not reach totality, viewers can join the crowds gathering in Las Vegas, NV; Bourbon Street in New Orleans, LA and Times Square, NYC.

EarthCam is also partnering with NASA to show their entire broadcast from 12pm until 4pm EST, live on billboards in Times Square.

EarthCam provides live streaming video and time-lapse construction cameras for corporate, tourism and government clients in major cities around the world.
