

PLIMBARI IN BRASOVUL VIRTUAL

September 22, 2008 Romania

Recently launched a website through which Brasov established abroad can walk through native town stand in front of computer. Of course, it is a virtual rides. Also, there many sites equipped with webcam, which anyone can see in real time what happens in different places in Brasov.

For comfortable Brasov

The new site can be found at: www.360rvr.com. "To start 360RVR will focus towards virtual walks through areas that we want to extend as much as possible, thus creating unique experiences for one that has already visited those places with such a feeling of Deja Vu, as well as one that does not has never been in that area, administrators say the site. For May Brasov comfortable wires, site administrators have thought that what they do is useful "if you want to get into town and do not know where, through a virtual tour you can see the newest restaurants, cafes, clubs or places leisure to decide where you want to enjoy your holiday. "

Big Brother in town

The video surveillance on streets or key points are found in all major cities of the world, and the images transmitted by them can be accessed on the internet on thousands of specialized sites. With a computer connected to the Internet can travel virtually in a small apartment Romania, until the partial ski, in China, on Fifth Avenue in New York or Paris. The Romans are thousands of miles away from home can see what events are taking place in the Square of Brasov. Are located Webcams on the Tampa and party Bradu (Brasov), the National Theater building and Boygues (Bucharest), to www.myx.net/static/en/webcam.htm. Live images of Square can be seen at: www.tourist-informator.info/ro/webcam/?Webcam=Brasov. The City Hall site to get to live images of Square, Republic Street (<http://mybrasov.ro/piatarevolutiei.html>) and the area intersection Route Bucharest - Zorilor / Uranus (<http://mybrasov.eu/zoriloruranus.html>). Tourists are interested, usually, the webcam installed sites in Bran and Poiana Brasov. Bran Castle can be seen live on: www.tourist-informator.info/en/webcam/?webcam=branmoeciu and Predeal at: www.tourist-informator.info/com/webcam/?predealwebcam. In Brasov are installed surveillance cameras in the station as well as the right of certain banks. Two years ago, through a pilot scheme made available by doritorilor Water Directorate Dobrogea Litoral, began to disseminate images live. A video monitoring system includes Modern beach in Constanta and the three other beaches in Mamaia (Doina, Lido and Park).

Pictures of live wild

Webcam sites assembled in the great capitals of the world, but also in the wilderness, have great success on the Internet. Undeniable stars of the webcam viewers were two eagles in British Columbia. A lover of birds mounted a video camera just above cuibului, permissive view of the Internet. Over 10 million people around the world watching every day to birds. There are Webcams with Panda bears (nationalzoo.si.edu/Animals/GiantPandas) and sharks in tank LONDON (www.camvista.com/england/london/sharks.php3). Many visits have webcam sites with the Statue of Liberty (www.earthcam.com/usa/NewYork/statueofliberty) and Panama Canal (www.pancanal.com/eng/photo/camera-java.html).
