

24/7 streaming cam now live for Red Wings arena construction

September 02, 2015 11:45 a.m. Updated 7 days ago

By Bill Shea

A [live streaming webcam](#) is now available for anyone who wants to watch construction of the \$532 million Detroit Red Wings arena.

The 24/7 cam is at districtdetroit.com/live-web-cam.

Olympia Development of Michigan, which is building the arena and surrounding District Detroit mixed-use development on behalf of Red Wings owners Mike and Marian Ilitch, announced the webcam today.

Olympia is the real estate arm of the Ilitches' \$3.3 billion business holdings that include the Red Wings, Detroit Tigers and Detroit-based Little Caesars pizza chain.

Work on the arena and events center is on schedule and will continue through the winter to ensure the building opens by September 2017, Olympia said.

For a full report about the arena's construction and financing, read [here](#).
