

[VIDEO] Time-Lapse of Wrigley Field Renovations

Wrigley Field, home of the Chicago Cubs, underwent a major renovation project and **EarthCam** documented each stage of the construction process. See progress from October 2017 to April 2018 with high definition construction camera images.

April 16, 2018

Showcasing progress from October 2017 to April 2018, this latest construction phase includes fan-focused improvements, such as an enhanced concourse and new field box seats. The players are getting some great upgrades as well with new, wider dugouts, the addition of two batting cages and a new trainer's room adjacent to their third base dugout.
