Time-lapse video shows how Memorial Hermann's \$85 million hospital expansion unfolded
New six-story, 229,000-square-foot patient tower will add capacity to multiple areas, system says.
May 13 Jeff Lagasse, Associate Editor

Memorial Hermann Katy Hospital in Katy, Texas recently completed an \$85 million expansion project to meet the needs of the growing community. [EarthCam's construction camera](#) was onsite to document the project with HD imagery from September 2014 to March 2016, and the entire process is showcased in a new time-lapse video.

The new six-story, 229,000-square-foot patient tower will add capacity to multiple areas. Renovations to the existing hospital include new surgical suites, labor and delivery, an expanded emergency department and other amenities.
