## Construction Time-Lapse Video: University of Kentucky's Gatton College of Business and Economics

Parul Dubery | August 14, 2017

See 31 months of construction is less than 1 minute with [EarthCam's](#) time-lapse movie of the University of Kentucky's Gatton College of Business and Economics. The building is a notable project for the school, as it is the first academic building on UK's campus to be financed entirely through philanthropy, and features technology-enabled classrooms, a real-time finance learning center and collaborative study spaces.
