Petra, Jordan ([earthcam.com/world/jordan/?cam=petra](http://earthcam.com/world/jordan/?cam=petra))

Petra, Jordan is among the top 10 on my travel bucket list. I've wanted to visit ever since I saw the Indiana Jones movie that featured this UNESCO World Heritage Site. Well, thanks to the Jordan Tourism Board's collection of live, streaming cameras, you can now travel to Jordan without leaving your home. Jordan is a land of mesmerizing beauty and offers so much for the modern traveler. From the beautiful city of Amman to ancient Petra to the amazing Dead Sea to the therapeutic Ma'in Hot Springs, experience views of this historic country that has become a must-see for people from all over the world.
