

1/16/17

With an [EarthCam](#) integration you can:

- View live video and 360 panoramas with access to camera controls – PTZ, presets and wiper functions
- Track construction progress through project archives with the smart, visual timeline navigation tool
- Share jobsite images privately among your team and post publicly via Facebook & Twitter to promote

Integration Summary

Accessing your project's images from your EarthCam construction camera with Procore's software makes it easier than ever to manage your jobsite. With tools such as image comparison and mark up, automated weekly progress reports, on-demand time-lapse movies and EarthCam's exclusive 360 panoramic views, you can effortlessly

view, control and market your jobsite progress within the Procore dashboard. Gain vital information about your camera's power source and network connection, the location's weather conditions, as well as map and satellite views through the data dashboard. With the EarthCam and Procore partnership, everything you need to know about your jobsite is now all in one place.

Company/Partner Summary

EarthCam is the global leader in providing webcam content, technology and services. Founded in 1996, EarthCam provides live streaming video, time-lapse construction cameras and photography documentation for corporate and government clients in major cities around the world. With regional offices located around the globe, we're always local to your jobsite!
