

EarthCam shows live look of osprey nest on Lake Norman

By Spectrum News Staff | March 29, 2018 12:18 PM

The image is a screenshot of a live stream interface on EarthCam. The main video window shows an osprey sitting on a nest made of sticks and branches. The interface includes a play button, a camera icon, and a timestamp of April 9, 2018, 2:59 pm, 74°F, 823 Likes, and 59,576 Views. Below the video player is a 'RELATED CAMS' section with thumbnails for Mooresville, NC; Spartanburg, SC; Greenville, SC; Greenville, SC; and Kiawah Island, SC. A 'Welcome to Lake Norman, NC!' section follows, featuring a map, text about the North Carolina Wildlife Federation (NCWF) and Lake Norman Wildlife Conservationists (LNWC), and logos for the NCWF and LNWC. At the bottom, there is a 'Learn more about our latest camera technology' link, a 'This EarthCam Sponsored by STUTTS' logo, and an 'EarthCam' social media link with 'Like Page 284K likes'.

MOORESVILLE, N.C. -An osprey nest is currently on Lake Norman, and officials are allowing the public to take a look.

[EarthCam](#) launched the new webcam in conjunction with the Lake Norman Wildlife Conservationists.

Watch as the birds hunt for food and prepare for new chicks this spring.
