

'Round the Square for Friday

Friday, August 19, 2016 10:00 am

LIGHTNING: The lightning storms of the past week were not exclusive to Bradford.

“On August 16, a massive lightning bolt lit up the sky surrounding the Statue of Liberty in New York City,” a press release from the company read. “Call it extreme weather, call it Mother Nature’s version of a spotlight showcasing the beauty of Lady Liberty.”

For videos of more interesting — or odd — people, places or things, see www.earthcam.com.

On Thursday, EarthCam will highlight live webcams installed at national landmarks in support of the National Park Service’s centennial celebration. Video footage of national landmarks can be found at www.earthcam.com/nps.

EarthCam is a webcam content and technology company based in New Jersey.
