

Two Eggs and Two Falcons

by Angie Hempel | March 23, 2017

We have two eggs in the nest!

We're seeing the falcons incubate the eggs more today – and we've seen both falcons in the nest, too. We had heard reports of falcons around the mid-town area of Omaha, but we're glad to see both of the WoodmenLife Tower falcons staying close to their nest.

Another egg might appear in the next couple of days so stay tuned!
