

## As in Africa, built a museum can be found in just 90 seconds (VIDEO)

Culture News, 27/09/2016

Construction of the Museum of African American History and Culture in Washington for several years recorded on [EarthCam](#) webcam.

The process of construction of the museum in timelaps shot mode, video lasts 90 seconds, informs [news.eizvestia.com](#).

The grand opening of the museum took place on 24 September. The ceremony was attended by US President Barack Obama and his wife Michelle.

For the first time the idea of creating a museum in 1915 advanced black veterans of the US Civil War.

Construction began in 2012.
