

## Jordan shows through EarthCam

MADRID, 13 Abr. (IRIN) -

Jordan was the first country in the Middle East streaming webcams installed in several of the best known and most visited places in the country. This has allowed for the past two years show, in real time, not only the beauty of many Jordanians enclaves but also the political stability that holds the country.

Thanks to these webcams visitors who are planning a trip to Jordan can finish "convince tranquility prevailing in the country", connecting with any of the four cameras scattered throughout the territory.

One of the cameras is in the Dead Sea with the distinction of being the webcam located at the lowest point on the planet. In Amman webcam are two: one in the historic Citadel and the second in one of the busiest, but gentle, streets of the capital.

Finally, viewers are invited to travel live the ancient city of Petra, more particularly, to enjoy the spectacular facade of the Treasury.

The webcam give the possibility to experience the country from a unique perspective and find everyone that Jordan is not affected by the turbulence experienced by the region.
