

Follow the Dream.

EarthCam Tracks the Journey of Space Shuttle Enterprise to New York

New York (PRWEB) June 05, 2012

EarthCam is your online ticket for exclusive LIVE coverage of the Space Shuttle Enterprise homecoming as she arrives at the Intrepid Sea, Air and Space Museum on Wednesday, June 6th. Operating with the latest in webcam technology, EarthCam's cameras deliver crisp, media-ready images available for instant sharing. Our unique software ensures the cameras are up and running so you don't miss a single historic moment.

Space Shuttle Enterprise is scheduled to depart the port at Bayonne, NJ at approximately 9:15am ET on Wednesday, sailing past the Statue of Liberty and One World Trade Center Freedom Tower before she reaches her final destination. EarthCam has several webcams located around the city which will be poised and ready to capture some amazing birds-eye-view footage. Visitors will be able to experience this extraordinary journey and watch the exciting event unfold from several unique angles, including:

Brooklyn Bridge Cam: www.earthcam.com/usa/newyork/brooklynbridge/

Downtown NYC Skyline Cam: <http://www.earthcam.com/usa/newyork/skyline/>

Statue of Liberty Cams: <http://www.earthcam.com/usa/newyork/statueofliberty/>

USS Intrepid Cams: <http://www.earthcam.com/intrepid/>

EarthCam has successfully tracked several legs of this journey, including the flyover last month, as well as the de-mating process as the shuttle was removed from the Shuttle Aircraft Carrier at JFK Airport on May 11th. To cap off this special event, EarthCam's Time-Lapse Production team will compile the captured images and edit them to create a theatrical time-lapse movie. For a copy of this dynamic movie, please contact Lauren Sampson at lsampson@earthcam.com. EarthCam will continue to showcase the Space Shuttle Pavilion exhibit on the USS Intrepid Cams once it opens on July 19th.

ABOUT EARTHCAM

EarthCam is the global leader in delivering world class webcam content, technology and services. Founded in 1996, EarthCam provides time-lapse megapixel cameras, live streaming video, and complete managed services for corporate and government clients in more than 1,500 international cities. With numerous applications in the construction, transportation, entertainment and tourism industries, EarthCam's revolutionary camera systems deliver superior HD clarity, monitoring, documenting, and archiving of the world's most important projects and events.

The award winning company hosts the world's most popular social media webcam network with over 50,000 Facebook fans. Some highly trafficked tourism cams are these popular locations: Times Square, the Abbey Road Crossing in London and the Las Vegas sign.
